METAL BUILDING STRUCTURES

COMMERCIAL STORES - PAPAKYRIAKOU D. PCE

Two storey shop including a basement and loft with a total surface area of 650sqm. in Chalkida, Evia.

The project involved the design, construction and installation of a metal frame for a two-storey building. The project included the roof overlay, side panelling and permanent metal formwork for both floors.

A distinctive feature of the building is the front facade canopy, as well as the architectural details of the building facades with the use of vertical and horizontal angled panels.
