FRESH HOTEL (FORMER PINDAROS)

Reconstruction of the listed building that operated the historic hotel Pindaros at the intersection of Sophocleous and Athinas streets, very close to the City Hall of Athens, with the aim of joining the Fresh Hotel and converting it into a 4-star hotel. The purpose of the project was the maintenance and repair of the existing facades in combination with a complete interior renovation and a loft.

The project includes the design, manufacturing, painting with fireproof system and partial installation due to the specificity of the project in four phases of steel columns and beams with a total of six floors and a loft.
