INDUSTRIAL METALWORK PROJECTS

# PRIVATE KTEO FACILITY IN GAGNY, FRANCE

Private KTEO building with a surface area of 700sq.m. in Gagny, France. The project involved the planning, construction and installation of a metal building with a double hipped enclosed roof consisting of a 500sq.m ground floor vehicle testing area, a two storey 200sq.m office building and 40sq.m canopy. To provide natural lighting and ventilation for the building, illuminated panels and vaulted domes with automatic electric mechanisms were installed on the roof.
