INDUSTRIAL METALWORK PROJECTS

PRODUCTION FACILITIES - CHRISTOS VEKRAKOS AND ASSC. E.E.

Light industrial coffee processing facility with a total surface area of 1000 sq.m. in Kavallari, Thessaloniki. The project included the planning, supply and installation of a metal building with two loading and unloading areas. The building contains ground floor storage areas with a surface area of 500, a 600 sq.m. production area and 250 sq.m. of office space which extends to the first floor. The project also included the roof overlay, exterior side panelling, internal lining as well as the necessary internal configuration of the building for sanitation purposes.
