INDUSTRIAL METALWORK PROJECTS

# THERMI PRIVATE KTEO FACILITY

Private KTEO with a total surface area of 1.200 sq.m in Thermi Thessaloniki.

The project involved the planning, construction and installation of a metal building with a double hipped enclosed roof consisting of a 1,200m2 ground floor vehicle testing area and 150m2 of canopies, as well as a 300sq.m two-storey office building.

A special feature of the building is a V-shaped canopy at its entrance, which has been externally panelled with allucobond cartridges.
