INDUSTRIAL METALWORK PROJECTS

WINERY OF KMPM ARGOVISION Ltd.

Industrial building with underground spaces with a total surface area of 800sq.m. in Lerissos Chalkidiki.

The project involved the construction of a winery consisting of four storage areas, three of which have a double hipped roof connected to each other to create a single space, while the fourth has a flat roof on which a wooden roof is mounted.

Ceramic tile panels were used for roof coverage, while polyurethane panels were used for exterior side panelling, with a section partly covered with a thermal facade.

CLIENT	KMPM ARGOVISION Ltd.
LOCATION	Chalkidiki
YEAR OF CONSTRUCTION	2012
WEIGHT	50 TN
